Paula Pérez

Associate since 2017

Paula is specialized in environmental law with more than fourteen years of experience in that practice. She has a comprehensive vision of environmental, administrative and regulatory matters since she has worked in both, public and private sectors. Paula has specialized in providing advice on compliance with legal obligations regarding environmental impact, concessions in the Mexican federal maritime zone, water, hazardous and non-hazardous waste management, soil pollution, environmental risk, forestry and land use changes, health and safety, urban development and other regulatory matters, such as the emerging regulations of cannabis and its derivatives. She has participated in multiple environmental audits for clients related to different industries, such as renewable energy, hydrocarbon, food and beverages producers, forestry and paper, chemistry, real estate and construction, consumer product manufacturing, tobacco, pharmaceutical and tourism, among others. Likewise, she has experience in litigation and administrative matters before act of Environmental authorities (Federal, State and Local). Paula has particularly worked with the environmental liability system entered into forced with the Federal Law of Environmental Liability.

As part of the ESG specialization, Paula has focused on designing tools for the development and implementation of regulatory management and environmental compliance systems, as key tools in our clients' ESG strategies.
