

CENACE extends suspension of its terms and deadlines

Energy – June 15, 2020

The National Energy Control Center extends again the suspension of its terms and deadlines

On June 15, 2020, the National Energy Control Center ("CENACE") published in the Federal Official Gazette a resolution ("Resolution") amending the "Resolution that orders the suspension of the deadlines and terms of the acts and proceedings carried out before CENACE, from March 26, 2020 until Sunday, April 19, 2020" (the "Original Resolution").

The Resolution extends the suspension period for requests and applications filed to CENACE, including those filed through the System for Attention to Interconnection and Connection Requests (*Sistema de Atención de Solicitudes de Interconexión y Conexión*), until June 30, 2020.

Due to the above, the terms and deadlines of the proceedings handled by CENACE will be suspended until June 30, 2020 and will resume on July 1, 2020.

The terms for CENACE or applicants that expire during the suspension period will be extended and resumed on July 1, 2020 and the requests and applications submitted to CENACE during the suspension period will be deemed as filed on July 1, 2020 (and consequently, the term for their resolution will commence as of such date).

The rest of the terms and conditions set forth in the Original Resolution will continue to have legal effect as establish therein.

For ease of reference, you may access the [Resolution](#) and the [Original Resolution](#).

Should these measures have an adverse effect on you, please do not hesitate to contact our team with expertise in energy matters, who can be of assistance:
